

2017 GRANTEES: JANUARY-JUNE

JANUARY MITH SAMLANH · CAMBODIA This project provides safe shelter, access to education and vocational training, and other support services to urban, marginalized girls who have suffered abuse and are separated from their families. This reduces the vulnerability of these girls to human trafficking.

FEBRUARY ETTA PROJECTS · BOLIVIA Local villagers are trained to become Health Promoters, strengthening the voice of indigenous people in their own health care, and allowing the Health Promoters to serve as first responders, save lives, and advocate for improved health outcomes.

MARCH CARAVAN TO CLASS · MALI This Female Adult Literacy Program teaches former nomadic women literacy skills in order to improve their livelihoods and empower them to be important advocates for education in their villages.

APRIL CHICUCHAS WASI · PERU Chicuchas Wasi provides the only free primary school education and meal program for rural indigenous Quechua-speaking girls. By providing comprehensive quality education, confidence building and personal development, this project is investing in future community leaders.

MAY MALI HEALTH · MALI This innovative Health Savings Program will improve the timeliness of health care, increase preventative care, and support income-generating activities for women in urban slums.

JUNE LIMITLESS HORIZONS IXIL · GUATEMALA Located in a post-conflict region, this project will provide indigenous girls and women access to education and academic support, career training, life skills workshops, mentorship, and income-generating opportunities including a community-led artisan program.
