HOW WE CHANGE THE WORLD
Dining for Women is eradicating poverty and changing the world by investing in women and girls in developing countries.

OUR CONCEPT IS SIMPLE. In chapters across the U.S., we share a meal in someone’s home, learn about grassroots projects that empower women and girls and promote gender equity, and donate what we would have spent dining out. A single gift, combined with thousands of others, transforms the lives of women and girls, families and communities.

YOU CAN MAKE A DIFFERENCE:
