### June – Haiti Projects | Haiti

We are happy to get on a call or come in person, if feasible, to answer questions about Haiti Projects. Because we are a small non-profit the majority of our staff, about 90 people, are Haitian and live and work for us in Haiti. In the United States, we have only 2 staff members and an accountant. We have 12 board members, mostly located in Massachusetts. It is best to call Cherie to set up an appointment for a chat, discussion, presentation or skype call about our projects. Cherie is more than happy to share about the work we do to empower women in rural Haiti.
